PROFESSIONAL EXPERIENCE

CNP Assurances | Actuarial Apprentice - Protection Financial Steering

Sep 2025 - Present

Issy-les-Moulineaux, France

- **Maintaining a 10-year P&L projection model** for a protection portfolio covering life, disability, long-term care, funeral, personal accident and credit life products. having to be updated throughout the year.
- **Produced and analysed FGAAP/IFRS 17 forecasts:** technical margin, combined ratio, lapse rates and profit sharing; contributed to ORSA and strategic planning.
- **Industrialised Excel projection workflows** with Power Query, VBA and Python; I optimized the P&L model to run in a fraction of its original running time.

Nextuarial | Actuarial Reserving & Data Science Intern

Jun 2025 - Aug 2025

Station F, Paris

- **Developed a RAG assistant** connected to the ReAct reserving engine (Python, Streamlit, OpenAI API) to query claims data and automate analyses and reports.
- **Segmented P&C portfolios** using PCA and clustering; back-tested Chain-Ladder reserves on raw versus clustered triangles.

EDUCATION & SELECTED PROJECTS

ISFA - Université Lyon 1 | Master's in Actuarial Science - graduated

Sep 2023 - 2026

Lyon, France

- **Actuarial qualification thesis in progress:** economic versus accounting profitability of a protection product under FGAAP and IFRS 17; defence targeted for October 2027.
- **Motor pricing:** GLM, CatBoost and XGBoost on 500,000+ observations; Bayesian optimisation, SHAP and Gini analysis.
- **Non-proportional reinsurance:** XL Risk, XL CAT and Stop Loss pricing on 20 years of claims; Pareto/Log-normal, Burning Cost, ROL and ROE.
- **ALM and quantitative finance:** EIOPA yield curve, market SCR, asset allocation and Monte Carlo option pricing.
- University exchange semester in Vietnam, with coursework completed in English.

Groupe Polytechnique de Nouakchott | MPSI/MP* Preparatory Classes

Sep 2021 - Jun 2023

Mauritania

- Ranked 5th nationally in the scientific baccalaureate.
