English – professional (B2)
Spanish – basic

GETS

France first
Europe and international
French or English roles

PROFESSIONAL EXPERIENCE

CNP Assurances | Financial Steering Actuarial Apprentice – Protection

Sep 2025 – Present

Issy-les-Moulineaux, France

- Designed a 10-year P&L projection model for a multi-risk Protection insurance portfolio.
- Produced and analysed French GAAP/IFRS 17 results: technical margin, combined ratio, lapses and profit sharing; contributed to ORSA and strategic planning.
- Industrialised projections with Excel, Power Query, VBA and Python; integrated a new product and analysed profitability, earnings emergence and CSM.

Nextuarial | Actuarial Intern – P&C Reserving & Data

Jun 2025 – Jul 2025

Station F, Paris

- Built an actuarial assistant connected to the ReAcT reserving engine (Python, Streamlit, OpenAI API), with controlled code execution and six export formats.
- Segmented 139,109 synthetic claims across 24 lines of business: PCA/clustering, selected 12 business-relevant groups and back-tested Chain Ladder on raw, clustered and pooled triangles.

SELECTED PROJECTS

Non-proportional reinsurance – Priced XL Risk, XL CAT and Stop Loss structures on 20 years of claims using Pareto/lognormal, Monte Carlo, Burning Cost, ROL and ROE.

Motor pricing – GLM and ML frequency/severity models, validation and calibration.

Life ALM – Projected 2,000 annuities over 50 years with market SCR and stresses.

EDUCATION

ISFA – Université Lyon 1 | Master's degree in Actuarial Science

Sep 2023 – 2026

Lyon, France

- Actuarial thesis in progress on Protection product profitability under French GAAP and IFRS 17; defence targeted for October 2027.
- Exchange semester in Vietnam, taught in English.

Groupe Polytechnique de Nouakchott | MPSI/MP* Preparatory Classes

Sep 2021 – Jun 2023

Mauritania

- Ranked 5th nationally in the scientific baccalaureate.
